

# Diane Dykkestén

## 1020 8th Street NW

I moved into this house twenty six years ago. It was very dirty. I replaced the windows with restoration glass and added some millboard. There was no inside toilet when I purchased it. The large trees in the front were planted by Clyde Tingley. I want to keep them, but the city wants them removed. I always wanted to live in this area. It is a good community and I enjoy walking downtown.

The house has a ghost, my old housekeeper and baby sitter. She knocks three times and I answer with one knock.
