

Margaret & Mike Connealy

801 14th Street NW

The Connealys have lived in the DNA for almost 3 years. Prior to then they lived in Wells Park in a rental. So they were familiar with the neighborhood and wanted to live there. They live in a refurbished home that was built in 1925 and fixed up in 2009-2010. It is a downsize from the spacious home they lived in in Dona Ana county where they had horses and greyhounds. Now they have cats. And cameras. Mike is a photographer and a classic camera collector. Margaret is a cook and grandmother babysitter. They have a daughter and her family living in ABQ also and that was the prime reason for moving here.
