

Rowan Wymark

719 Roma Ave. NW

I have lived here for close to three years. Before moving into this wonderful house I lived in the arid wastelands of the NE Heights. Moving down here has been one of the best things that has happened to me. I presently serve on the DNA Board and am editor of the newsletter among other things.

My lovely little house is actually more of a bungalow. I haven't really fully checked out its history, but I believe that it was built in the 1930s or 40s. There are fabulous little details in the house, hard wood floors, a superb porch and gorgeous doorways. I have not as of yet had much work done on it, but when I do, I plan to stay completely in accordance with the already existing floor plans and preserve the whole feeling of what is very definitely my best home ever.
